SunPower® Equinox™ Accessories

The smallest pieces make the biggest difference

You wouldn't put inferior tires on a hot rod. So why use inferior accessories on the industry's only all-in-one, complete home solar system? SunPower® Equinox™ accessories are designed to fit seamlessly together and deliver immediate results—including faster installations, greater reliability and higher customer satisfaction.

Purpose-built
to save you time, money and frustration

Easy to install
with no need for elaborate workarounds

Cost-effective
thanks to easy ordering and bulk purchase options
